

Getting The Goods: Ports, Labor, And The Logistics Revolution

SOCIOLOGY LABOR

"In this fascinating book, Edna Bonacich and Jake Wilson take us inside the nation's largest ports to expose the inner workings of the retailer-driven global supply chains that are increasingly vital to today's import-dependent U.S. economy. Their richly detailed analysis of the logistics revolution's effects on labor—from poorly paid immigrant port truckers engaged in an uphill organizing battle to the labor aristocracy of unionized longshore workers—bristles with insight. *Getting the Goods* is a great read, provocative, and surprisingly optimistic."

—**Ruth Milkman**, UCLA, author of *L.A. Story: Immigrant Workers and the Future of the U.S. Labor Movement*

"*Getting the Goods* contains a wealth of information about container ports, sea carriers, land carriers, and warehouses. The reader can feel the pulse of each type of activity, feel as if he or she is with the authors as they talk to the key people involved; the interviews in *Getting the Goods* are first rate, vivid, and alive."

—**Sary B. Hamilton**, University of Washington

"*Getting the Goods* gives us a bird's-eye view of the multimodal logistics system in the largest ports in the United States: Long Beach and Los Angeles. They paint a living picture of the supply chain that is a must-read for those on the ground thinking about organizing the workers in the giant retailers whose lifeblood is the importation of millions of containers through America's largest ports. I'll be mandating that every ILWU organizer read this important book!"

—**Peter Olney**, Director of Organizing, International Longshore and Warehouse Union (ILWU)

"Edna Bonacich and Jake Wilson illustrate how workers can capitalize on their strengths and position in the transportation and retail industries to counter the 'race to the bottom' workers across the planet have been experiencing. This book is a must-read for all labor activists, whether in unions, worker centers, or other independent working-class organizations."

—**Bill Fletcher, Jr.**, Co-Founder, Center for Labor Renewal and syndicated columnist

Bonacich and Wilson follow the flow of imports from Asian factories, exploring the roles of importers, container shipping companies, the ports, railroad and trucking companies, and warehouses. At each stage, *Getting the Goods* raises important questions about how the logistics revolution affects logistics workers. *Getting the Goods: Ports, Labor, and the Logistics Revolution* by Edna Bonacich and Jake B.
